| | | |
|---|------------------------|----|
| 1 | Scope | 2 |
| 2 | Class A locks | 4 |
| 3 | Class B locks | 8 |
| 4 | Class C locks | 20 |
| 5 | Class D locks | 22 |
| 6 | List of suppliers..... | 24 |

Edited by:
European Certification Body GmbH
Lyoner Straße 18 • 60528 Frankfurt am Main • Germany

1 Scope

The lock guide is applicable for the following certified ECB•S products:

- Secure cabinets according to EN 14450
- Safes, ATM safes and strongroom doors according to EN 1143-1
- Deposit systems (deposit safes and night safes) according to EN 1143-2

ECB•S certified secure storage units shall exclusively be equipped with high security locks according to EN 1300 which are listed both in the approved technical documentation (Annex to the certificate) and in the lock guide ECB•S R01. The mounting instruction of the listed locks have to be followed when used in a certified secure storage unit.

In the lock guide, the following locks are classified:

- Mechanical key locks (KL)
- Mechanical code locks (CL)
- Electronical locks (EKL – Electronic token/key locks; ECL – Electronical code locks)

Additional abbreviations:

- PS: Picking protection
- AS: Automatic scrambling
- IND: Indirect drive
- RS: Redundant system
- ¹⁾ Mounting dimensions not according to the informative Annex D of EN 1300:2018

Bolt design:

- [Dead bolt, square bolt, straight bolt etc.
- ⊂ Flat bolt
- ∟ Swing bolt, roto bolt etc.

Please consider: The bolt dimensions are only generalized and categorized, e.g. "flat bolt" locks may differ in size and shape from each other. This lock guide does not express that all the listed locks are interchangeable.

Further features of the ECB•S certified locks are listed in the electronic product locator at www.ecb-s.com.

The column "ECB•S certificate" shows the current certificate number. In product specific locks lists the last letter may be replaced with an "x". For instance "9696/HSL09-08B" may be shown as "9696/HSL09-08x" in product specific lock lists.

In addition to the ECB•S certified high-security locks, it is also permitted to install certified locks from other accredited certification bodies in ECB•S certified secure storage units. These are on the one hand the „locks in black font“ listed here which have also a „certification label“ from another accredited certification body or the locks listed here in „grey font“. When using the locks listed from other accredited certification bodies, the secure storage unit manufacturer is obliged to obtain proof of

compliance with the relevant class(es) in accordance with the EN 1300 from the lock manufacturer and to make this available on a permanent basis. Locks from other certification bodies must also be approved in the certificate of the secure storage unit (see annex of ECB•S certificate).
